Dear Claire

People's Postcode Lottery support for NWT

Once again, I would just like to say thank you on behalf of Northumberland Wildlife Trust for supporting our charity to the cumulative tune of nearly £100,000 to date. We particularly welcome our latest payment of £36,971 which is more than we had expected this quarter and confirms the success of your marketing and the dynamic promotion of the lottery as you roll it out in North East England and beyond. Hopefully we can help you to even more success in the future.

Please be aware that PPL is now by far our most important corporate sponsor and partner. The funding you are bringing to us is supporting all our work, in particular our efforts to increase membership of the Trust, which is starting to bear fruit, as well as the contribution towards saving threatened species like the water vole and red squirrel and our projects re-connecting people to nature such as Living Waterways and Living Landscapes.

You have seen our work yourself at Druridge Bay and with PPL funding we will continue our work there to improve access to nature and to employ a reserves warden across the area.

A big thank you again. We are proud to be associated with you and all at PPL.

Best wishes

Mike Pratt
Chief Executive
